The University of Alabama-Pickens County Partnership seeks to provide sustainable health care for Pickens County and real world training for UA students in medicine, nursing, social work, psychology, health education and other disciplines.

This guide was created by Laura Beth Brown, who is a fellow with the UA-Pickens County Partnership, to connect all Pickens County residents with the many available resources among Aliceville, Carrollton, Gordo and Reform. This is the only community-based resource guide in Pickens County. Brown hopes the guide will be helpful in connecting Pickens County residents to resources the county offers.

Learn more about the partnership at cchs.ua.edu/pickenscounty.
